

*Your Identification on Metals and Plastics*

*Metagra Industry conflict minerals:*

*As a European company, Metagra Industry complies with all relevant European and domestic legislations. In the framework of the Conflict Minerals Regulation, (EU) 2017/821, Metagra Industry qualifies as a "downstream" company, since Metagra Industry is active beyond the metal phase (i.e. we do not import any products in the metal phase). Therefore, Metagra Industry is not subject of and has no obligations under the abovementioned European regulation. With regard to Section 1502 of the US Dodd-Frank Wall Street Reform and Consumer Act of 2010, Metagra Industry is not de jure subjected to this legislation nor does it de facto is, since Metagra Industry falls outside the scope of said legislation as that the company operates "outside the supply chain" of the targeted products.*

A handwritten signature in blue ink, appearing to be "J-M. Tombeur", is written over a large, faint, blue circular stamp or watermark.
