

The EU Chemicals Directive 1907/2006 Reach

Metagra Industry NV. is not a producer of substances under REACH, but we are downstream user. In case we are importing substances or mixtures from outside Europe, we will of course ensure that the proper registration of the substance or mixtures is ensured to be in conformity within Reach.

Products you purchase from Metagra Industry NV. are, by definition of Reach not to be registered as they are seeing as articles. Chemical substances contained in our products, which may possible be subject to registration, have to be registered exclusively by our pre-suppliers.

Until today no information is present that products supplied by us contain substances from the candidate list SVHC as updated by ECHA on 27th June 2024 in a way that they conflict with the EU Chemicals directive 1907/2006 Reach.

This declaration replaces all previous ones relating to this subject.
